

# Quadrofoil expands its International Dealer Network

## PRESS RELEASE

### **QUADROFOIL EXPANDS ITS INTERNATIONAL DEALER NETWORK**

In the last week of June Quadrofoil organized its first Dealer Network Meeting in Portorož, Slovenia, gathering the most motivated and pro-active sales partners from around the world – Australia, Czech Republic, Croatia, Mauritius, Saudi Arabia, Singapore, The Netherlands, Turkey, United Arab Emirates, United States and United Kingdom.

*[Quadrofoil Q2S Limited Edition introduced by Simon Pivec, Quadrofoil R&D Director]*

The Quadrofoil Team introduced the first serially produced Quadrofoil Q2S Electric Limited Edition in the water and outside it so that the dealers could see, feel and experience the product uniqueness and its technical ingenuity.

The company founders presented the Quadrofoil story, philosophy, brand, products and future plans. The R&D Team educated the future dealers on design and engineering details of the product and the serial production process. Quadrofoil CEO and President Marjan M. Rožman presented the business model, dealer network communications and service. He highlighted the dealership opportunities and led the fruitful discussions with the partners. As a grand finale of three day dealers gathering the first official Quadrofoil dealer contracts were signed providing Quadrofoil presence on 16 markets.

*"The first Quadrofoil Dealers Network Meeting exceeded all our expectations. Dealers felt in love with Quadrofoil and its sensation. We gave them all the necessary information, knowledge and business support needed for successful dealership and a sustainable business relation. Encouraged by the meeting success we will continue to grow the dealer network - our next Dealers Network Meeting is taking place in autumn this year. Yet, our main focus remains the final review of the serially produced vessel to optimize the production processes and simplify*

*the products delivery and maintenance,"* said Marjan M. Rožman, Quadrofoil CEO and President.
